Cassius Dio's Forgotten History of Early Rome brings together ten studies on the literary, historiographical, rhetorical, and generic and textual dimensions of the least explored section of Dio's enormous history of Rome: Books 1-21.

The verbal section of the GRE is essentially a vocabulary test. With a few exceptions, if you know the word, you will probably be able to answer the question correctly. Thus, it is crucial that you improve your vocabulary. Even if you have a strong vocabulary, you will still encounter unfamiliar words on the GRE. Many students write off questions, which contain words, they don't recognize. This is a mistake. This book introduces numerous techniques that decode unfamiliar words and prod your memory of words you only half-remember. With these techniques, you will often be able to squeeze out enough meaning from an unfamiliar word to answer a question correctly. Nevertheless, don't rely on just these techniques--you must study word lists. Obviously, you cannot attempt to memorize the dictionary, and you don't need to. The GRE tests a surprisingly limited number of words, and this book has 4000 prime candidates. Granted, memorizing a list of words is rather dry, but it is probably the most effective way of improving your performance on the verbal section. All the words you need for success on the GRE! Features: * 4000 Words Defined * Word Analysis section * 200 Prefixes, Roots, and Suffixes * Concise, practical definitions

Cassius Dio and the Late Roman Republic offers new understandings of Dio's late republican narrative both as a well-informed historical source and a skillful narrative informed by the rich tradition of Greco-Roman history writing.

First part of an historical narrative originally composed in Greek during the reigns of Septimus Severus.

Rome was founded under a different name between 1000 and 1500 years before 753 bce. The city by more than a few sources of evidence was in part a continuation of the Trojan War, as well as an outlying city called Alba Longa. The first major rally point from the escaping Trojans was the future cite of Constantinople renamed by the Muslims to Istanbul. A minor closer rally point was the future location of the Counsel of Nicaea, which is where the books of the Bible were literally voted upon to create the current canonized and un-canonized books of the Bible. Prince of Troy Aeneas was sent out to build or upgrade an existing city e.g. Alba Longa to prepare for the influx of Jewish refugees "The Lost 13th Tribe of Israel The Trojan War survivors and the Slaves from the Hyksos Dorian shield wall whom managed to escape to join the ranks of the Trojans were ferried out of the War to two safe grounds. First to the future city of Rome, second to Northumberland aka the Kingdom of Yr Hen Ogle dd. The Punic War actually started immediately after the Trojan War, with those still young enough chased the Trojans from Troy to the City of Seven Hills. Itself was part of the Hyksos invasion evacuation from the Jews whom built the Pyramids. In effect the City of Seven Hills was built as an evacuation replacement for the Pyramids. The time from 1300 to 753 bce was carefully erased from the city's history, in part because the events in that more than half a millennia were entirely unpleasant for the attacking Hyksos army. Both the Dorians and Avaris were present at both Troy and The City of Seven Hills. The entire Helen, Menelaus, Paris love triangle is a pure fiction with less than 0 basis in fact. Helen and Menelaus would not have been within literally an arrow shot of each other. There is absolutely no possible way Helen would have been promised in marriage to him. It would be similar to the son of Al-Qaida being engaged to the daughter of Manada. However a love triangle most likely did exist between Moses aka Ajax the Lessor and Queen Hecuba and wife of King Priam. She was more than likely the daughter of Amenhotep IV Akhenaten. Moses followed the escaping Trojans to Alba Longa to keep fighting. His descendants and himself were the ones whom wrote the history down, if he wanted to lie, questioning his word or what he wrote down was an executable offense from the time of the Exodus aka the Trojan war and Levant Ghetto to King David. This is where the cascade effect from the end of the Trojan War becomes the War to destroy The Seven Hills and rename to Rome; erasing all the evidence from previous to the founding of Rome.

In this fourth volume of Joseph E. Gillet's monumental study, Propalladia and Other Works of Bartolomé De Torres Naharro, all students of Renaissance drama will find a wealth of material on the origins of the modern European theater. Torres Naharro created the cloak-and-sword play almost a century before Lope de Vega. The complotplaces of romantic comedy appeared, for the first time on any stage, in his Comedia Ymenea published at Naples in 1517. Two of his works, the Soldadesca and the Tinellaria--evocations of the roistering life of the barracks and of a cardinal's scullery--are remarkable examples of dramatic realism avant Ia lettre. The influence of Torres Naharro and his work on the Spanish drama of the sixteenth century was all pervasive. In this volume, all the material gleaned by Dr. Gillet in extensive research is brought into clear focus to show Torres Naharro as a man of the Renaissance and a man of the theater. Of the greatest interest is the exposition of his intuition of the distinction between poetic and historic truth--comedias a fantasia and a noticia--long before the recovery of the true text of Aristotle's Poetics, and of the substratum of primitivism in many of his plays: ritual societies, the medicine man, the right to tribute, social discipline, name changing, loss of memory, sports, games, acrobatics, sorcery, riddles, genealogies, weddings, propitiation and death song, resuscitation, license and chastity, and so on. And this dramatic activity occurred early, antedating most of the Italian plays of the sixteenth century.
