Ethnomusicology is the study of music within the context of its larger culture, though there are various definitions for the field. Some define it as the study of why and how humans make music. Others describe it as the anthropology of music. If anthropology is the study of human behavior, ethnomusicology is the study of the music humans make.

*What Is Ethnomusicology? Definition, History, Methods*

Ethnomusicology, literally the study of the music of communities (ethnos), has been defined as the study of music in its social and cultural context. In this sense it is a combination of anthropology and musicology, and it shares many of its formative influences with anthropology, sociology, psychology, and folklore on the one hand and musicology, music theory, art history, and literary criticism on the other.
