This collection of slacker psychedelic comics spawned a thousand Internet memes.

Never in human history was there such a chance for freedom of expression. If we have Internet access, any one of us can publish almost anything we like and potentially reach an audience of millions. Never was there a time when the evils

of unlimited speech flowed so easily across frontiers: violent intimidation, gross violations of privacy, tidal waves of abuse. A pastor burns a Koran in Florida and UN officials die in Afghanistan. Drawing on a lifetime of writing about dictatorships and dissidents, Timothy Garton Ash argues that in this connected world that he calls cosmopolis, the way to combine freedom and diversity is to have more but also better free speech. Across all cultural divides we must strive to agree on how we disagree. He draws on a thirteen-language global online project—[freespeechdebate.com](http://freespeechdebate.com)—conducted out of Oxford University and devoted to doing just that. With vivid examples, from his personal experience of China's Orwellian censorship apparatus to the controversy around Charlie

Hebdo to a very English court case involving food writer Nigella Lawson, he proposes a framework for civilized conflict in a world where we are all becoming neighbors.

In a contemporary setting of increasing social division and marginalisation, Policing Hate Crime interrogates the complexities of prejudice motivated crime and effective policing practices. Hate crime has become a barometer for contemporary police relations with vulnerable and marginalised communities. But how do police effectively lead conversations with such communities about problems arising from prejudice? Contemporary police are expected to be active agents in the pursuit of social justice and human rights by stamping out prejudice and group-based animosity.

At the same time, police have been criticised in over-policing targeted communities as potential perpetrators, as well as under-policing these same communities as victims of crime. Despite this history, the demand for impartial law enforcement requires police to change their engagement with targeted communities and kindle trust as priorities in strengthening their response to hate crime. Drawing upon a research partnership between police and academics, this book entwines current law enforcement responses with key debates on the meaning of hate crime to explore the potential for misunderstandings of hate crime between police and communities, and illuminates ways to overcome communication difficulties. This book will be important reading for students taking courses in hate crime, as well as

Slithering upon the heels of Dark Horse's archive collections of the seminal horror comics magazine Creepy comes its terror-filled cousin publication Eerie! Collected for fans for the first time ever, and packaged in the same amazing oversized format as the Creepy Archives, Dark Horse Comics has taken great, gruesome care in presenting this groundbreaking material to readers who have been waiting decades to get their claws on it.

Although scientific models and simulations differ in numerous ways, they are similar in so far as they are posing essentially philosophical problems about the nature of

representation. This collection is designed to bring together some of the best work on the nature of representation being done by both established senior philosophers of science and younger researchers. Most of the pieces, while appealing to existing traditions of scientific representation, explore new types of questions, such as: how understanding can be developed within computational science; how the format of representations matters for their use, be it for the purpose of research or education; how the concepts of emergence and supervenience can be further analyzed by taking into account computational science; or how the emphasis upon tractability--a particularly important issue in computational science--sheds new light on the philosophical analysis of scientific reasoning.

Pre-crime aims to pre-empt ' would-be-criminals ' and predict future crime. Although the term is borrowed from science fiction, the drive to predict and pre-empt crime is a present-day reality. This book critically explores this major twenty-first century development in crime and justice. This first in-depth study of pre-crime defines and describes different types of pre-crime and compares it to traditional post-crime and crime risk approaches. It analyses the rationales that underpin pre-crime as a response to threats, particularly terrorism, and shows how it is spreading to other areas. It also underlines the historical continuities that prefigure the emergence of pre-crime, as well as exploring the new technologies and forms of surveillance that claim

the ability to predict crime and identify future criminals. Through the use of examples and case studies it provides insights into how pre-crime generates the crimes it purports to counter, providing compelling evidence of the problems that arise when we act as if we know the future and aim to control it through punishing, disrupting or incapacitating those we predict might commit future crimes. Drawing on literature from criminology, law, international relations, security and globalization studies, this book sets out a coherent framework for the continued study of pre-crime and addresses key issues such as terminology, its links to past practises, its likely future trajectories and its impact on security, crime and justice. It is essential reading for academics and students in security studies, criminology,

counter-terrorism, surveillance, policing and law, as well as practitioners and professionals in these fields.

In 1492 Columbus set out across the Atlantic; in 1776 American colonists declared their independence. Between these two events old authorities collapsed and a new, empirical worldview had arrived, focusing now on observation, experiment and mathematical reasoning. This book takes us along on a voyage of discovery that ushered in the modern age.

This one hundred page book focuses exclusively on how you can best use the ASP.NET MVC 4 Framework to build world-class REST services using the Web API. It sets aside much of

what the ASP.NET MVC Framework can do, and focuses exclusively on how the Web API can help you build web services. You will not find any help on CSS, HTML, JavaScript, or jQuery. Nor will you find any help on the Razor view engine, HTML Helpers, or model binding. If you need this information then Pro ASP.NET MVC 4 is your perfect book. ASP.NET MVC 4 and the Web API: Building a REST Service from Start to Finish helps you build cutting-edge REST services using ASP.NET MVC 4 and the Web API in more depth and detail than any other resource. ASP.NET MVC has always been a good platform on which to implement REST, but with the advent of the Web API it has now become even better. This book will show you why it's great and how to get the most from it. Author Jamie Kurtz

will take you from zero to full-blown REST service hero in no time at all. And you'll even learn how to incorporate some popular open source tools along the way: little or no experience with ASP.NET or the MVC Framework is required.

Design Against Crime will aid the design profession to meet the challenges presented by the competing needs and complex systems around crime and security. It proposes that designers should use their creative talents to develop innovative solutions to security problems that contribute to the ongoing fight against crime. The authors first explain the design against crime approach to security and security. They go on to provide practical advice on addressing crime and insecurity within the design process and offer practical

examples of design being applied to security and safety. They also examine crime victimisation from a global perspective, highlighting the benefits worldwide of reducing opportunities for crime, including issues of national security, such as terrorism and natural disasters. A design-led, human-centred approach provides a way forward that is both aspirational and practical. The book is aimed primarily at design professionals, educators and students interested in safety and security, from all design disciplines, including product design, architecture, service design and communication design. The book should also be read by crime prevention experts, planners, local authorities, managers of urban environments and policymakers.

Redtails Hockey Four Complete Novels The Brick Wall He's crashing hard and needs the perfect distraction... Redtails Hockey goaltender Shane Conrad had been having a great year...until recently. His slump couldn't happen at a worse time. He needs to get his head in the game, not find a woman to screw with it. Until he meets Bliss Vescovi. She's hot as hell in bed and smart enough out of it to realize their affair will end with the season. Bliss isn't looking for a commitment, especially not from an intense, driven man used to control. Her ex's need for control had nearly made her his emotional slave and she's sworn she'll never give another man that kind of hold over her again. But a one-night stand with a hot hockey player who won't be around forever? Totally doable. The Grinder He goes in deep and

makes the plays... Riley Hatch is a fast-talking minor-league hockey player with a reputation as a grinder. He goes in deep, hits hard and comes out with the puck. He's not known for giving up and, when he meets a cool blonde who trips all his switches, he's not about to take no for an answer. Aly Martin's aversion to professional athletes falters when faced with the six-foot-four hockey god towering over her. He's everything she never wanted in a man...overtly sexy, rough around the edges and pushy. And absolutely irresistible. Riley falls hard and fast but he knows he's going to need more than determination to break down Aly's reservations. But will his lifelong dream of making it to the NHL cost him the woman of his dreams? The Enforcer He's used to making an impression, not always a good one...

Coming into a team in the middle of the season is never easy but veteran hockey player Will MacDonald is a tough guy. He's not afraid to drop his gloves in defense of his teammates and he's never met a woman who's made his heart pound as hard as a good fight. Until he has a chance collision with a curvy brunette. Jess Gardiner has been around hockey all her life. Her dad, an NHL scout, taught her everything he knows about the game and she believes Will is just what the young Redtails team needs. He's just not what she needs in her life, even if he is huge, hot and hard-bodied. The Instigator He's an instigator on and off the ice... Derek Flaherty can goad any opponent into throwing down his gloves with a few well-chosen words. Off the ice, he can talk a woman into dropping her inhibitions in seconds. His

Redtails teammates love him...when they don't want to gag him. From the moment he sees Sophie, Derek discovers what it's like to be struck dumb. For two seconds. Then he does what he does best. He charms his way into her bed. But can he charm his way into her life? Sophie Tsoukalos is well acquainted with chaos. As a waitress in her parents' bar and favorite aunt of her four sisters' kids, she's used to dealing with drunks and toddlers. But she's never met a man like Derek. His panty-dropping smile entices her to let loose and invite him into her bed. She never expected this playboy to want to stay. But when he pushes for more than she's prepared to give, will Sophie give him heart? Or let him slip through her fingers?
