Strategic Marketing Problems: Cases and Comments balances the concepts and tools useful for solving marketing problems with numerous case studies that challenge readers to apply what they've learned.

For courses in Marketing Strategy, Marketing Management, and Strategic Marketing. The premier marketing strategy and management casebook in the world.

MARKETING: THE CORE, 2/e by Kerin, Berkowitz, Hartley, and Rudelius continues the tradition of cutting-edge content and student-friendliness set by Marketing 8/e, but in a shorter, more accessible package. The Core distills Marketing's 22 chapters down to 18, leaving instructors just the content they need to cover the essentials of marketing in a single semester. Instructors using The Core also benefit from a full-sized supplements package. The Core is more than just a "baby Kerin"; it combines great writing style, currency, and supplements into the ideal package.

More than two millennia ago the famous Chinese general Sun Tzu wrote the classic work on military strategy, The Art of War. Now, in a new edition of Sun Tzu and the Art of Business, Mark McNeilly shows how Sun Tzu's strategic principles can be applied to twenty-first century business. Here are two books in one: McNeilly's synthesis of Sun Tzu's ideas into six strategic principles for the business executive, plus the text of Samuel B. Griffith's popular translation of The Art of War. McNeilly explains how to gain market share without inciting competitive retaliation, how to attack competitors' weak points, and how to maximize market information for competitive advantage. He demonstrates the value of speed and preparation in throwing the competition off-balance, employing strategy to beat the competition, and the need for character in leaders. Lastly, McNeilly presents a practical method to put Sun Tzu's principles into practice. By using modern examples throughout the book from Google, Zappos, Amazon, Dyson, Aflac, Singapore Airlines, Best Buy, the NFL, Tata Motors, Starbucks, and many others, he illustrates how, by following the wisdom of history's most respected strategist, executives can avoid the pitfalls of management fads and achieve lasting competitive advantage.

This authoritative, comprehensive, and accessible volume by leading global experts provides a broad overview of marketing strategy issues and questions, including its evolution, competitor analysis, customer management, resource allocation, dynamics, branding, advertising, multichannel management, digital marketing and financial aspects of marketing. The Handbook comprises seven broad topics. Part I focuses on the conceptual and organizational aspects of marketing strategy while Part II deals with understanding competition. Customers and customer-based strategy, marketing strategy decisions, and branding and brand strategies are covered in the next three parts while Part VI looks at marketing strategy dynamics. The final part discusses the impact of marketing strategy on performance variables such as sales, market share, shareholder value and stakeholder value. All of the chapters in this Handbook offer in-depth analyses of research developments, provide frameworks for analyzing key issues, and highlight important unresolved problems in marketing strategy. Collectively, they provide a deep understanding of and key insights into the foundations, antecedents and consequences of marketing strategy. This compendium is an essential resource guide for researchers, doctoral students, practitioners, and consultants in the field of marketing strategy.

Reinvent marketing for your radically new environment: smarter, faster, more agile, more customer-driven! In this "by marketers, for marketers" primer, Nicholas Johnson offers evidence-based guidance for transforming what you do, and how you do it. The Future of Marketing shows how to anticipate and respond to relentless change in channels, media options, organizational relationships, technologies, markets, products, services – and most important of all, customers. Johnson investigates each key emerging trend marketers are facing, from shifting customer expectations and fragmenting media landscapes to the challenge of synthesizing vast troves of data into actionable knowledge. He explains how these trends are eradicating 'marketing' as we know it, and helps you respond by refashioning organizational structures, marketing campaigns, marketer roles, and much more. You'll learn how to:
↳ Move from "campaigning" to storytelling and authentic conversations
↳ Achieve true "real-time marketing" and greater agility throughout the marketing function
↳ Migrate from big TV buys to a pervasive multi-channel/omni-channel approach
↳ Accelerate marketing processes, eliminate bureaucracy, and optimize agility
↳ Mitigate risk when everything's moving at lightspeed
↳ And much more Johnson supports his recommendations by taking you behind the scenes with some of the world's top marketing teams, at companies including L'Oreal, Old Navy, Time Warner, Adidas, HP, McDonalds, Wells Fargo, and Universal. These highly-successful marketers have recognized that they too must change to flourish in a radically new environment. Johnson shows how they're planning and executing those changes – and how you can, too. Whether you're a marketing executive, strategist, or manager, The Future of Marketing offers what your organization needs most: a clear path forward.

The phrase "work smarter, not harder" has been repeatedly ridiculed in the Dilbert comic strip and elsewhere, not because it is a bad idea, but because it is thrown like a brick lifesaver to drowning employees. To tell someone to work smarter is like telling someone to be happier, healthier, and richer. It's not much help to merely repeat the objective; what people need is a plan for achieving the objective. In Making Great Decisions, we show our readers how to achieve their objectives. We write to help those in business and those in the business of life--i.e., everyone--to work smarter. Our ideas are both simple and powerful. We offer a better way to look at problems so that the solutions are easier to find. We help supplement our readers' clear thinking by summarizing some of the most powerful techniques we have discovered. Have you ever driven through corn country? From a distance, all you see are corn stalks and more corn stalks in a jumbled mess. Then suddenly, when you get closer, your perspective changes, and you can see down the rows and realize that the corn was planted perfectly in straight lines. Your perception of the crop changes from a messy jumble to a clear picture simply because you're in the right spot. This book puts readers in that ideal spot. So many problems seem like hopeless jumbles but then, when you start using the techniques we discuss here, they start to look as straightforward as the straightest line in an Iowa cornfield. What motivated us to write this book is that, over the years, both of us have regularly come across people in organizations--often bright people with MBAs or other graduate degrees--who don't think they have time, energy, or skills to make good decisions. They have many clues but don't know how to put them together. They regularly face situations that they could analyze with some of the tools they learned in their courses, but they don't realize that. We don't hold ourselves apart from this group, and stories of our successes and failures are sprinkled throughout Making Great Decisions in Business and Life.
