Praise for the first edition of *Multiple Streams of Internet Income* "If ever the world needed some help to succeed on the Internet, this is the moment. Robert Allen's new book is just in time to save the day." —Jack Trout, President, Trout & Partners, Ltd. author of *Differentiate or Die* "Earning money . . . serious money, is no different than piloting a jet aircraft or baking an apple pie. You have to learn how and you must understand what you're doing. Robert Allen is a master flight instructor if you want your income to soar. He knows what ninety-eight percent of our population have proven they don't know. Read this book and follow his advice. In a relatively short period of time, you will become wealthy and be amazed at how much free time you have when you never have to worry about money." —Bob Proctor, author of the bestseller *You Were Born Rich* "The only thing better than the promise in the title of Robert Allen's wonderful *Multiple Streams of Internet Income* is the enlightening information in the book itself. And the only thing better than the book is the life a reader can lead after reading the book and taking the actions that are suggested. Of all the books I've read about earning money online, this one tops the list for a multiple stream of reasons." —Jay Conrad Levinson, author of the *Guerrilla Marketing* series "Robert Allen has done it again! *Multiple Streams of Internet Income* is an exciting look into the many creative things you can do with your money in today's new economy. I can't wait to use its wisdom!" —Ken Blanchard, coauthor of *The One Minute Manager®* and *Big Bucks!* "Information is less expensive to manufacture, promote, and ship than hard products such as running shoes and CDs. Robert Allen shares how you can apply Internet technology to selling information: books, reports, articles, seminars, speeches, and consulting. There are a lot of fluff books on e-commerce. This one is detailed, accurate, and readable. *Multiple Streams of Internet Income* is not just a book, it's a complete and hands-on course in advanced commerce. Congratulations." —Dan Poynter, author of *The Self-Publishing Manual*

'The irresistible power of money, a lever that can lift the world. Love and money are the only things.' Aristide Rougon, known as Saccard, is a failed property speculator determined to make his way once more in Paris. Unscrupulous, seductive, and with unbounded ambition, he schemes and manipulates his way to power. Financial undertakings in the Middle East lead to the establishment of a powerful new bank and speculation on the stock market; Saccard meanwhile conducts his love life as energetically as he does his business, and his empire is seemingly unstoppable. Saccard, last encountered in *The Kill* (*La Curée*) in Zola's *Rougon-Macquart* series, is a complex figure whose story intricately intertwines the worlds of politics, finance, and the press. The repercussions of his dealings on all levels of society resonate disturbingly with the financial scandals of more recent times. This is the first new translation for more than a hundred years, and the first unabridged translation in English. The edition includes a wide-ranging introduction and useful historical notes. This book tells the story of the renaissance of the Kurna language, the language of Adelaide and the Adelaide Plains in South Australia, principally over the earliest period up until 2000, but with a summary and brief discussion of developments from 2000 until 2016. It chronicles and analyses the efforts of the Nunga community, and interested others, to reclaim and relearn a linguistic heritage on the basis of mid-nineteenth-century materials. This study is breaking new ground. In the Kurna case, very little knowledge of the language remained within the Aboriginal community. Yet the Kurna language has become an important marker of identity and a means by which Kurna people can further the struggle for recognition, reconciliation and liberation. This work challenges widely held beliefs as to what is possible in language revival and questions notions about the very nature of language and its development.

Offers a fictional account of the 15th century saint as a paragon of honesty, unselfishness, and innocence.
